Mini Scott Trial and Consistency Enduro

June 4, 2017

The Mini Scott Trial was conceived by former members Reg Shanks and Jim Drinkwater (both deceased) in 1967. It is patterned after the famous Scott Trial in the U.K. A course is ridden at speed with riding checks interspersed throughout and the fastest time sets the pace. Points are lost by adding the minutes off the pace and points lost in the riding checks. The Consistency Enduro is an event that riders try and maintain speed consistency throughout. The Mini Scott Trophy was donated by life member Al Barclay
